

GSKSMO Take Action Support Mini-Grant Application

Deadline: March 15 for projects completed March-June

Deadline: June 1 for projects completed July-September

What: GSKMO will be offering up to twenty (20) grants of up to \$100.00 for Take Action projects.

Take Action projects are different from community service projects. Girls identify a cause they feel passionate about, and with advocacy and action, make a change.

Community service projects address an immediate need in the community. Take Action projects challenge girls to identify and understand the root cause of the issue they are addressing. Girls also must make sure that each project is sustainable and that the impact is measurable. See our website for examples for Take Action projects.
